...   so they can make decisions without interference or delays."
     aiShip allows eBay auction buyers to %calculate% comparative
%shipping%/handling %rates%, sales tax and %shipping% insurance
automatically for multiple %shipping% carriers at any time during the
shopping or auction process to determine their total costs before they buy.
Buyers can select from a seller-defined variety of %shipping% services,
such as USPS, UPS and other carriers, and easily %calculate% the
%shipping% costs for multiple purchases from the same seller. The

%shipping% costs can be %calculated% based on the %shipping% destination
zip code to eliminate the over/undercharging for %shipping% inherent in
flat %rate% %shipping% charges - ultimately increasing customer
satisfaction. aiShip automatically populates the auction checkout process
with the %shipping%/handling costs to reduce the need for %shipping%
-related correspondence between the buyer and seller to save both parties'
time and effort. PayPal...

... Martin, Sales OnLine Direct Chief Technology Officer. "aiShip is the
most feature-rich and robust %shipping% calculator on the market. We're
continuing to automate as many processes as possible to...

... these new enhancements, we've made it even easier for sellers to
integrate the aiShip %shipping% calculator into their auctions and the
calculator now accommodates a broader spectrum of carrier and...

...they prefer not to use aiShip's calculator HTML. * "Media Mail and Bound
Printed Matter" %Shipping% Services -- Sellers that primarily ship items
that qualify for either the US Postal Service's Media Mail or Bound Printed
Matter %shipping% services can now offer this lower-cost %shipping% option
to customers. * Insurance Thresholds -- Sellers who insure their packages
can now set threshold levels for each carrier under which insurance will
not be included in the %shipping% calculation. This allows sellers to keep
their customers' total %shipping% cost down while controlling their own
risk level. * UPS "Entry Points" -- The aiShip calculator can now
%calculate% the different %rates% that UPS charges depending on what method
the seller uses to deliver packages to UPS...

... more professional feel and its colors better complement a wider variety
of auction item description %templates%. The enhanced Calculator HTML is
now more compatible with Turbo Lister and Auction Wizard 2000...

...get the best possible price for their shipments in a competitive market, better than negotiating %rates% ahead of time.
That scenario hasn't happened. The tools are still there, though, and...
... of their community. Everyone is registered, said Davidson. Shippers can designate how they want their %freight% to run over the network, either through contracted %rates% with carriers, or through an auction or other means. The system is hosted by NTE...

...air and ocean, said George Abernathy, senior vice president.
Who buys it?
Shippers and 3PLs %shipping% for customers purchase the system to interact with their trading community. Most shippers ship 100 percent of their %freight% through their community, said Davidson. The solution gives better compliance and control, shipment visibility and...

...for the buck?
"One customer that has been using the system (NTE Trade, software for %freight% tendering and execution), his first month's report - he saved 5 percent off the price...

... building products that uses NTE Trade for its TL and LTL shipments, had a compliance %rate% - using carriers with which the company had contracted %rates% - of about 65 percent before using the system. By using NTE, that number has gone...
...share information electronically with trading partners.
Similarly, the software creates the necessary documents for inbound %shipping% and has a centralized database for classifications of imported products. It %calculates% tariffs and duties, which are updated daily on the company's website. Its duty management...

...audit, said Jepsen. Either the company has been asked by a government to get better %shipping% processes in place or they install Vastera in the hopes of getting a lower penalty by demonstrating that they are fixing their %shipping% problems, he said.
Finally, clients are seeing improved payment times by matching their export documents...
